WITH BLOODHOUNDS****CONDUCTOR KIDD IS SHOT BY  
BANDIT; DIES AT HOSPITAL  
AT POCATELLO.**

BUTTE, Mont., June 19.—The sheriff's office was in receipt of advice last night that Conductor William Kidd died in the hospital at Pocatello that evening of a gunshot wound inflicted by one of two outlaws in effecting an escape from Deputy Sheriff Samuel Melton of Spencer, Idaho. Deputy Melton, who also was wounded, while in a serious condition, it is believed will recover.

Late last night word from Spencer is to the effect that posses from Spencer, Dubois, Lima and Monida have the outlaws surrounded in Tooley's swamp and that a special train bearing the prison bloodhounds from the Montana penitentiary is awaited.

**CRIMINALS ESCAPE**

SALT LAKE CITY, Utah, June 19.—Deputy Sheriff Samuel Melton of Dubois, Idaho, and William Kidd of Pocatello, a train conductor, were shot and mortally wounded by two men on a southbound Oregon Short Line train near the mouth of Beaver canyon, Idaho, yesterday.

Deputy Sheriff Melton boarded the train at Dubois and arrested two men on suspicion of having robbed a saloon at Monida, a town on the Montana-Idaho line.

He conducted the prisoners into the smoking car and searched them. He took from one two pistols which he placed on the car seat. While reaching in his pocket for handcuffs one of the men picked up a pistol and shot Melton three times through the upper part of his body. Conductor Kidd seized the man, who fired a bullet through the abdomen of the conductor.

Both the wounded men fell to the floor of the car. The prisoners then held the passengers at bay and pulled the chord signaling the engineer to stop the train.

When the train stopped the two men alighted and escaped into the country. The alarm was immediately given and posses were sent out from the towns of Spencer and Dubois. The wounded men were taken to Pocatello for treatment. Neither is expected to live.

**WHISKEY BURNED;  
CATTLE SAVED****DISTILLING COMPANY'S BUILD-  
ING IS RAZED TO THE  
GROUND.**

ST. LOUIS, June 19.—Fire Sunday morning destroyed the seven-story building of the Jack Daniel Distilling company and an adjoining lumber yard. The loss was estimated at more than \$100,000. The flames were confined to the distillery and the lumber yard, but at times they threatened to spread to nearby milling and wood working companies.

Two thousand barrels of bonded whisky were destroyed and 300 head of cattle were saved.

The fire was within three blocks of the fires of Thursday and Friday nights, which caused losses of \$1,300,000. The distillery is owned by Tennessee men. The cause of the fire is not known.

**IS THIS BIGAMY  
OR NOT?**

An investigation of records reveals the fact that on June 20, 1910, A. Jarvis and Miss Marie Morris were joined in the holy bonds of matrimony at Santa Rosa, California. In November of the same year the records show that A. Jarvis and Marie Morris were joined in the holy bonds of matrimony at Elko, Nevada. Now when they were married the second time one had a wife and the other a husband living, and neither had secured a divorce.

Very few couples are so well pleased with the wedding ceremony that they want to repeat it the first year. It may be the first honeymoon was so sweet that a second one was decided on as indispensable.

What relation is Mrs. Jarvis' first husband to her second husband and how could she live with both at once without either one being jealous? Which suggests the query, could two husbands be the father of the same children and—will some Philadelphia lawyer untangle the tangle?—Carlin Commonwealth.

**SLOW PROGRESS  
REVEALING WRECK****PUMPS KEEPING WATER AT 10-  
FOOT LEVEL DURING  
THE DAY**

HAVANA, June 19.—Practically no progress was made Saturday in the uncovering of the Maine. The pumps merely being used to keep the water a trifle below the 10-foot level, which was reached yesterday.

The removal of the mud that covers the exposed sections of the wreck was begun, but a terrible rain storm soon compelled the suspension of this task.

In many places the material covering the decks and filling the interior spaces to a depth of several feet, is supposed to be harbor silt, proves to be a coral-like formation, defying removal by water pressure and necessitating much tedious work with picks.

Study of the effects of the explosion awaits the uncovering of the bow section, portions of which are fully 40 feet down, apparently being almost completely severed from the after part at a point immediately forward of the engine room, where soundings give 20 feet.

**EMERGED FOR  
OVER TWO HOURS****REMAIN UNDER WATER FOR 10  
HOURS ECLIPSING ALL  
PREVIOUS RECORDS.**

GLOUCESTER, Mass., June 19. American records for submerged runs were broken by the flotilla of seven submarines which arrived here yesterday from Newport. All of the number stayed under water for ten hours during the run from Nantucket to Provincetown, while two of the number did not come to the surface for eleven hours. This is the longest time that any submarine of the United States navy has ever remained beneath the surface, according to the officers of the flotilla.

The run from Provincetown to this port was made entirely beneath the surface and consumed seven and a half hours.
